

# Re-Energy: STEAM Electric Vehicle Activity

**Design your own electric vehicle:** In the space below, use your creativity to draw and design a brand new electric vehicle of the future!

A large, empty rectangular box with a thin black border, intended for a child to draw their own electric vehicle design.

**In order to share your design, you'll need to build a prototype:** Brainstorm what materials you would need to build your own small-scale electric vehicle prototype.

*Consider recyclable or reusable materials (i.e. toothpaste box for the body of the vehicle, etc), what you would need to make it move (i.e. wheels, batteries), etc.*
