

Activity Name	Organizing Idea	Learning Outcome
<u>Activity: All About Plastics</u>	B. Natural Resources Around the World: Use and Sustainability	B3.2 - describe ways in which people use the natural environment, including specific elements within it, to meet their needs and wants
<u>Activity: Circular Economy and the UN's Sustainable Development Goals</u>	B. Natural Resources Around the World: Use and Sustainability	B2.1 - formulate questions to guide investigations into issues related to the impact of the extraction/ harvesting and/or use of natural resources around the world from a geographic perspective
<u>Activity: How Plastic Waste Harms the Environment</u>	B. Natural Resources Around the World: Use and Sustainability	B3.2 - describe ways in which people use the natural environment, including specific elements within it, to meet their needs and wants
<u>Activity: Imagine a Waste-Free Economy</u>	B. Natural Resources Around the World: Use and Sustainability	B2.1 - formulate questions to guide investigations into issues related to the impact of the extraction/ harvesting and/or use of natural resources around the world from a geographic perspective
<u>Activity: Our Plastic Consumption Footprint</u>	B. Natural Resources Around the World: Use and Sustainability	B2.1 - formulate questions to guide investigations into issues related to the impact of the extraction/ harvesting and/or use of natural resources around the world from a geographic perspective
<u>Activity: Plastic Remake</u>	B. Natural Resources Around the World: Use and Sustainability	B3.2 - describe ways in which people use the natural environment, including specific elements within it, to meet their needs and wants
<u>Activity: Plastic in Our Oceans</u>	N/A	
<u>Activity: Sorting Your Waste</u>	N/A	
<u>Activity: Taking Inspiration from Nature</u>	N/A	
<u>Activity: Types of Plastics</u>	B. Natural Resources Around the World: Use and Sustainability	B3.2 - describe ways in which people use the natural environment, including specific elements within it, to meet their needs and wants

[Activity: Why Do We Have Plastic Waste in the Environment?](#)

B. Natural Resources Around the World: Use and Sustainability

B3.2 - describe ways in which people use the natural environment, including specific elements within it, to meet their needs and wants
