

Activity Name	Organizing Idea	Learning Outcome
<a href="#">Activity: All About Plastics</a>	Protons and Neutrons, Characteristics of Life	Life processes are performed at the cellular level.
<a href="#">Activity: Circular Economy and the UN's Sustainable Development Goals</a>	Protons and Neutrons, Characteristics of Life	Life processes are performed at the cellular level.
<a href="#">Activity: How Plastic Waste Harms the Environment</a>	Protons and Neutrons, Characteristics of Life	Life processes are performed at the cellular level.
<a href="#">Activity: Imagine a Waste-Free Economy</a>	Protons and Neutrons, Characteristics of Life	Life processes are performed at the cellular level.
<a href="#">Activity: Our Plastic Consumption Footprint</a>	Protons and Neutrons, Characteristics of Life	Life processes are performed at the cellular level.
<a href="#">Activity: Plastic Remake</a>	Protons and Neutrons, Characteristics of Life	Life processes are performed at the cellular level.
<a href="#">Activity: Plastic in Our Oceans</a>	Protons and Neutrons, Characteristics of Life	Life processes are performed at the cellular level.
<a href="#">Activity: Sorting Your Waste</a>	Protons and Neutrons, Characteristics of Life	Life processes are performed at the cellular level.
<a href="#">Activity: Taking Inspiration from Nature</a>	Protons and Neutrons, Characteristics of Life	Life processes are performed at the cellular level.
<a href="#">Activity: Types of Plastics</a>	Protons and Neutrons, Characteristics of Life	Life processes are performed at the cellular level.
<a href="#">Activity: Why Do We Have Plastic Waste in the Environment?</a>	Protons and Neutrons, Characteristics of Life	Life processes are performed at the cellular level.
