

# Electronic Overload

Energy Revealed  
Worksheet  
Grade Level 9-12

Name: \_\_\_\_\_

| Device | Power Use Prediction (Watts) | Actual Power Used (Watts) | Total energy to charge device | Total energy to charge device in 1 week | Total energy to charge device in 1 year |
|--------|------------------------------|---------------------------|-------------------------------|---|---|
|        |                              |                           |                               |   |   |
|        |                              |                           |                               |   |   |
|        |                              |                           |                               |   |   |
|        |                              |                           |                               |   |   |
|        |                              |                           |                               |   |   |
|        |                              |                           |                               |   |   |
|        |                              |                           |                               |   |   |
|        |                              |                           |                               |   |   |
|        |                              |                           |                               |   |   |
|        |                              |                           |                               |   |   |
