

# Energy Investigation - Energy Savings Plan (20 points)

Based on your energy investigation results, create an Energy Savings Plan for your classroom, school or learning environment. Recommend some specific changes you would like to see implemented. Explain how it would reduce energy consumption, greenhouse gas (GHG) emissions, and annual costs. Use this worksheet to outline your energy savings plan here. If you choose to use other ways to show your energy savings plan, please mention it here.

**Hint:** Refer to the [Energy Savings Plan Outline Example](#)

**Tip:** See *Energy Savings Plan* section on *Assessment Rubric* for scoring
