Energy-Related Rules and Responsibilities of the President of the Board of Directors

As President of the _____ (*last name*) Board of Directors, I am responsible for bringing the value of energy conservation to the Board's attention and for encouraging the Board to act on the many benefits that conservation will bring. I commit to using my knowledge to the best of my ability to help this Board learn more about energy, move towards a more energy efficient household and celebrate our achievements.

I will help do this in the following ways:

1. _____
2. _____
3. _____
4. _____
5. _____

By increasing the _____ (*last name*) Board's understanding of energy use and conservation and by encouraging them to become more energy efficient, I am helping my Board support a strong and healthy Canadian economy and environment.
