		B2.5 - evaluate evidence and draw conclusions about issues and challenges associated with balancing human needs/wants and activities with environmental stewardship in Canada
<a href="#">Activity: Flood:ED School Greening Simulator</a>	N/A	
<a href="#">Activity: Flooding Mapping Tour</a>	B. People and Environments: Political and Physical Regions of Canada	B2.2 - gather and organize information and data from various sources to investigate issues and challenges associated with balancing human needs/wants and activities with environmental stewardship in one or more of the political and/or physical regions of Canada
		B2.3 - analyse and construct print and/or digital maps, including thematic maps, as part of their investigations into balancing human needs/ wants and activities with environmental stewardship in Canada
		B2.4 - interpret and analyse information and data related to their investigations, using a variety of tools
		B2.5 - evaluate evidence and draw conclusions about issues and challenges associated with balancing human needs/wants and activities with environmental stewardship in Canada

<a href="#">Activity: Flooding and Climate Change</a>	B. People and Environments: Political and Physical Regions of Canada	B2.2 - gather and organize information and data from various sources to investigate issues and challenges associated with balancing human needs/wants and activities with environmental stewardship in one or more of the political and/or physical regions of Canada
		B2.4 - interpret and analyse information and data related to their investigations, using a variety of tools
		B2.5 - evaluate evidence and draw conclusions about issues and challenges associated with balancing human needs/wants and activities with environmental stewardship in Canada
<a href="#">Activity: Climate Change in My Watershed Inquiry</a>	N/A	
<a href="#">Activity: Extreme Weather Inquiry</a>	N/A	
<a href="#">Activity: Runoff Footprint</a>	N/A	
<a href="#">Activity: Understand Flooding</a>	B. People and Environments: Political and Physical Regions of Canada	B2.2 - gather and organize information and data from various sources to investigate issues and challenges associated with balancing human needs/wants and activities with environmental stewardship in one or more of the political and/or physical regions of Canada
		B2.4 - interpret and analyse information and data related to their investigations, using a variety of tools
		B2.5 - evaluate evidence and draw conclusions about issues and challenges associated with balancing human needs/wants and activities with environmental stewardship in Canada
<a href="#">Activity: What are Floodplains and Watersheds?</a>	B. People and Environments: Political and Physical Regions of Canada	B2.2 - gather and organize information and data from various sources to investigate issues and challenges associated with balancing human needs/wants and activities with environmental stewardship in one or more of the political and/or physical regions of Canada
		B2.3 - analyse and construct print and/or digital maps, including thematic maps, as part of their investigations into balancing human needs/ wants and activities with environmental stewardship in Canada
		B2.4 - interpret and analyse information and data related to their investigations, using a variety of tools
		B2.5 - evaluate evidence and draw conclusions about issues and challenges associated with balancing human needs/wants and activities with environmental stewardship in Canada
<a href="#">Activity: Flood Resilience Plan for Your School</a>	N/A	
<a href="#">Activity: Preparing for Flood Resilience</a>	N/A	
<a href="#">Activity: Take Action: Adopt a Drain Campaign</a>	N/A	
<a href="#">Activity: Take Action: Build a Rain Garden</a>	N/A	
<a href="#">Activity: Take Action: Flood Protect Your Home</a>	N/A	
<a href="#">Activity: Chasse Au Trésor</a>	N/A	

<a href="#">Activity: Take Action: Home Flood Protector Scavenger Hunt</a>	N/A	
<a href="#">Activity: Take Action: Install Rain Barrels</a>	N/A	
<a href="#">Activity: Take Action: Plant a Tree</a>	N/A
