

LEAVE A LEGACY

For the Planet and Future Generations

CLIMATE CHANGE

Climate Change is an Urgent Issue

Young Canadians are deeply affected by climate change. According to [a report on Climate Emotions and Anxiety among Young People in Canada](#), over 78% of youth report that climate change impacts their mental health. 56% report experiencing feelings of sadness, anxiety and powerlessness, while 37% report that these feelings about climate change are negatively impacting their daily functions.

Why Canada's Youth Need Your Support

Canada's young people inherit both the challenges and opportunities of environmental change. They need:

- Critical thinking skills to navigate complex environmental issues
- Technical knowledge about renewable energy and sustainable systems
- Leadership experience to drive community-level change
- Optimism and agency to counter climate anxiety

The impacts of climate change are real and present. This is why at GreenLearning, we are committed to empowering students to create positive change for our evolving world using our free education programs about energy, climate change and green economy.

Education as Our Proven Approach

We've been offering energy and climate change education resources for over 20 years, first as part of the Pembina Institute and since 2010 as GreenLearning.

We believe in Youth-led Solutions

Our programs:

- Align and enhance provincial education curricula.
- Encourage active citizenship and stewardship.
- Build resilient communities through practical action.
- Offer 21st Century education skills and competencies.
- Helps students understand complex environmental issues.

Your Environmental Impact Can Last Forever

Your contribution to our work is a solution in meeting the climate education demands of an evolving world. When you add GreenLearning in your estate plans, you are contributing towards helping young people shift from eco-anxiety to eco-optimism, turning fear into action for sustainable change. Your legacy gift ensures that future generations have access to the environmental education tools they need to protect our shared planet.

Include Us in Your Will

A gift in your will costs nothing today but creates enormous impact tomorrow. Whether it's a specific amount or a percentage of your estate, every bequest helps secure environmental education for the future.

Donor Advised Funds

Create an ongoing giving vehicle that lets you support environmental education year after year, often with significant tax advantages and family involvement opportunities.

Securities and Investment Gifts

Donate stocks, bonds, or other investments directly to avoid capital gains tax while maximizing your impact on environmental education.

What Your Planned Gift Supports

Direct Classroom Experiences

Hands-on learning workshops that bring environmental education directly to students, making complex topics accessible and actionable.

Curriculum-Aligned Resources

Development of new educational materials that align with provincial curricula while encouraging active citizenship and building resilient communities.

Student Innovation Recognition

Challenge prizes that celebrate outstanding student environmental projects and innovation, inspiring continued engagement.

Professional Development Workshops

Training educators across Canada in climate education, giving them the tools to inspire and educate the next generation of environmental leaders.

Help Us Grow Our Impact from 2024

- 62,358 educators in our network across Canada
- 12,604 students directly engaged
- 4,459 educators trained in climate education
- 316 students participated in action-based challenges

GreenLearning is a registered charity - 80221 9469 RR0001. Donations directly support program delivery with primary focus on wages and program materials that directly serve students. Every planned gift is unique, just like every supporter. We'd love to discuss how your values and financial situation can create the biggest possible impact for environmental education in Canada.
