

Workshops for a Greener Future Ottawa-Carleton District School Board

Explore our six live-virtual workshops to prepare you for GreenLearning's Challenges, where you will have a chance to win up to \$1000!

Learners make waves in this workshop and dive into the vital role oceans play in our world. Based on our Ripples of Change program, learners become empowered to take meaningful action for the future of our oceans.

Date & Time: Mar. 18, 1:30-2:15pm | [Register Here](#) | Gr. 3-8

Oceans of Change

Excess Water: Flooding in Your Community

Learners dive into this workshop based on our Flood:ED unit to wade through the causes and effects of flooding while exploring real-life solutions to mitigate flooding in their communities.

Date & Time: Mar. 20, 1:30-2:15pm | [Register Here](#) | Gr. 3-8

Learners branch out into topics such as greenhouse gases, and electricity consumption. Based on our Energy Revealed lesson plans, learners explore the importance of energy efficiency and conservation.

Date & Time: Mar. 21, 1:30-2:15pm | [Register Here](#) | Gr. 3-8

Speak for the Trees

Spot the Troll

Explore the world of misinformation on climate policies based on our Climate Policy Quest lesson plans. Learners will sharpen their skills to spot misleading content online, while empowering students to advocate and create policies on issues that are important to them.

Date & Time: Mar. 27, 1:30-2:15pm | [Register Here](#) | Gr. 9-12

Learners break down the life cycle of single-use plastics and reimagine a sustainable, waste-free economy in this engaging workshop based on our Eco 360 program.

Date & Time: Mar. 31, 1:30-2:15pm | [Register Here](#) | Gr. 3-8

ReMaker Space

Re-Energized

Plug into our Re-Energized workshop (based on our Re-Energy program!), to become renewable energy engineers through exploring renewable and non-renewable energy sources.

Date & Time: Apr. 10, 1:30-2:15pm | [Register Here](#) | Gr. 7-12
