

Workshops for a Greener Future

Peel District School Board

Explore our six live-virtual workshops to prepare you for GreenLearning's Challenges, where you will have a chance to win up to \$1000!

Spot the Troll

Explore the world of misinformation on climate policies based on our Climate Policy Quest lesson plans. Learners will sharpen their skills to spot misleading content online, while empowering students to advocate and create policies on issues that are important to them.

Workshop 1: Apr. 1, 9:15-10:00am | Gr. 9-12 | [Register Here](#)

Workshop 2: Apr. 24, 4:00-4:45pm | Gr. 9-12 (student environmental committee) | [Register Here](#)

Learners branch out into topics such as greenhouse gases, and electricity consumption. Based on our Energy Revealed lesson plans, learners explore the importance of energy efficiency and conservation.

Workshop 1: Mar. 28, 10:30-11:15am | Gr. 3-8 | [Register Here](#)

Workshop 2: Apr. 3, 10:30-11:15am | Gr. 9-12 | [Register Here](#)

Speak for the Trees

Excess Water: Flooding in Your Community

Learners dive into this workshop based on our Flood:ED unit to wade through the causes and effects of flooding while exploring real-life solutions to mitigate flooding in their communities.

Workshop: Mar. 20, 10:30-11:15am | Gr. 3-8 (Gr 9-12 are welcome to join) | [Register Here](#)

Re-Energized

Plug into our Re-Energized workshop (based on our Re-Energy program!), to become renewable energy engineers through exploring renewable and non-renewable energy sources.

Workshop: Apr. 8, 9:15-10:00am | Gr. 9-12 | [Register Here](#)
