

Science Slam

Energy Revealed
Learner Handout
Grade Level 9-10

Communicating your ideas is an essential part of expanding awareness about energy consumption and conservation. While technology can assist in this, it is passion that drives the ideas home.

Imagine that you have been tasked to communicate the science of energy conservation and consumption to a large audience, and suddenly your amazing PowerPoints and digital presentations disappeared! How would you continue on? These people have come a long way to hear from you!

Science Slam

The show must go on! You have 5 minutes to present on any science topic relating to energy conservation and consumption without the use of a projector and slides.

You are judged on:

- Scientific accuracy
- Time limit (5 minutes)
- Ability to communicate science in:
 - Engaging manner
 - Entertaining presentation
 - Concise and clear scientific information
