

Climate Champions

RE-ENERGIZED

Date: Feb 5, 2026

Time: 9:45am - 10:30am

Grade: 7-12

[**Register Here**](#)

Date: Feb 5, 2026

Time: 11:30am - 12:15pm

Grade: 3-6

[**Register Here**](#)

Learners plug-in to our *Re-Energized* webinar to become renewable energy engineers! Based on GreenLearning's Re-Energy Program, this session focuses on renewable vs non-renewable energy sources and the benefits of incorporating renewable energy into our daily lives.

SPEAK FOR THE TREES

Date: Feb 24, 2026

Time: 11:30am - 12:15pm

Grade: 5-8

[**Register Here**](#)

Learners branch out into topics like climate change and greenhouse gases, while highlighting the environmental effects of electricity consumption. Connected to our Energy Revealed program, this webinar will emphasize the importance of energy efficiency and proactive climate action.

EXCESS WATER: STEAM SOLUTIONS

Date: Mar 3, 2026

Time: 9:45am - 10:30am

Grade: 7-12

[**Register Here**](#)

Dive into our Excess Water webinar connecting learners to real-life flooding experiences. Based on our Flood:ED program, this webinar will not only look at the causes and effects of flooding, but encourage students to explore several flood mitigation techniques.

REMAKER SPACE: SINGLE-USE PLASTICS

Date: Mar 4, 2026

Time: 9:00am - 9:45am

Grade: 3-5

[**Register Here**](#)

Date: Mar 4, 2026

Time: 11:30am - 12:15pm

Grade: 6-8

[**Register Here**](#)

Rethink your plastic waste with the ReMaker Space webinar based on our Eco 360 program! Learners are encouraged to think about sustainability when it comes to everyday items, and explore the transition towards a circular economy.
